What is Music? Music is rhythm. Music is melody. Music is feeling... and oh, so much more. In this richly layered compendium, Aliko shares her keen insight about music and all its themes and variations. Ah, Music! is about composers and instruments. It's about artists and performers. It's about history -- from the earliest music through classical, modern, jazz, and popular times. It's about diversity and pleasure. If you have a love of music in your bones, or if you are just learning, or if you are about to play in your first recital, it's about you. Ah, music!

Packed with hands-on tips, Beaver/Wyatt's EARLY EDUCATION CURRICULUM: A CHILD'S CONNECTION TO THE WORLD, 8th Edition, shows you how to conduct observations and assessments, plan and implement a curriculum, set up an inclusive child-centered environment, plan developmentally appropriate activities in 11 subject areas and use technology in early learning programs. Students and experienced teachers alike will learn how to make informed decisions about curriculum content, develop creative thinking skills and effectively apply development and learning theory. Updated with the latest research and national standards, the 8th Edition presents material on brain research that underlies teaching ideas as well as information on reflective practice, intentional teaching, the environment as a teaching tool and equity and diversity. Case studies enable you to apply your knowledge to real-life issues. On a simple trip to the park, the joy of music overtakes a mother and daughter. The little girl hears a rhythm coming from the world around her- from butterflies, to street performers, to ice cream sellers everything is musical! She sniffs, snaps, and shakes her way into the heart of the beat, finally busting out in an impromptu dance, which all the kids join in on! Award-winning illustrator Frank Morrison and Connie Schofield-Morrison, capture the beat of the street, to create a rollicking read that will get any kid in the mood to boogie.

An award-winning author celebrates childhood independence! Button, zip, scrub, rub, paint and write -these are just a few of the things independent children can do. Aliko's fun rhyming text and lively illustrations celebrate the joys of mastering these skills, morning, noon, and night. Ages 3-6

An adaptation of the classic Shakespeare play by the author's second grade class.

Integrating musical activities in the elementary school classroom can assist in effectively teaching and engaging students in Language Arts, Science, Math, and Social Studies, while also boosting mental, emotional and social development. However, many elementary education majors fear they lack the needed musical skills to use music successfully. Future elementary school teachers need usable, practical musical strategies to easily infuse into their curriculum. Written for both current and future teachers with little or no previous experience in music, Using Music to Enhance Student Learning, Second Edition offers strategies that are not heavily dependent on musical skills. While many textbooks are devoted to teaching music theory skills, this textbook is dedicated to pedagogy – the actual teaching of music – particularly in those schools without a separate music class in their curriculum. The ultimate goal is for future teachers to provide their elementary school classes with engaging learning experiences. These learning experiences are clearly presented to enable children to acquire knowledge in all subject areas within a joyful, creative environment rich with music activities. New to the second edition are the animated listening maps, more audio tracks, a new guitar unit, expanded coverage in the recorder unit, a connection with visual art and music, expanded activities in American history and math, and updated research and statistics. SPECIAL FEATURES Animated "Listening Maps" help listeners focus on music selections through clear visual representations of sound. Group Activities reinforce the social aspects of music-making, as well as the benefits of collaborative teaching and learning. A thorough integration of music in the curriculum establishes that music is essential in a child's development, and that the incorporation of music will enhance all other subjects/activities in the classroom. Learning Aids include "Tantalizing Tidbits of Research," which provide the justifications for why these activities are important, as well as "Teaching Tips," and "Thinking It Through" activities. The Using Music Package

Join Kat, the musical kitten, and Bird, her kind-hearted pal, as they learn to count and keep the beat in this brand-new board book that stars the same characters from Greg Foley's adorable picture book Kat Writes a Song! Kat, Bird, and the rest of her friends are sure to have readers clapping, counting, and cheering for more as they learn about rhythm and how to count in this inventive board book that shows the power of song. A great read-aloud for parents and little ones to share, this sweet story proves that music has the power to bring friends together.

The third book in the Sarai Gonzalez illustrated chapter book series inspired by the life of viral video sensation and social activist Sarai Gonzalez. They're cutting funding at Sarai's school and her band program is the first to go. That is totally not okay with Sarai. She decides to organize a benefit concert to raise money! When she and her bandmates promote the concert on their video channel, it catches the attention of Sarai's favorite singer, Sparkles Sanchez! Can Sarai save the music?

When his best friend Peter moves away, Robert has no one to play with, no one to fight with, and no fun at all. Then he meets Will -- and finds he's not the only one who needs a new best friend.

Common Core State Standards for Grades 2-3: Language Arts Instructional Strategies and Activities is designed to help teachers teach CORE standards using research-based, effective instructional strategies in combination with ready-to-use activities. These strategies include identifying similarities and differences, writing summaries and taking notes, creating non-linguistic representations, and suggestions for homework and practice.
