Ethereum smart contracts have many smart use cases for the banking and finance sector. Smart contracts can be applied to areas such as in mortgages, national bonds, payments and settlements, and Insurance claims etc. For example, let assume that a person fails to pay ‘x’ number of EMIs consecutively without any notice to the bank.

These Are The 5 Best Use Cases Of Ethereum Smart Contracts

Mattereum has the tools to make physical goods flow around the world as easily as information using Ethereum blockchain smart contracts. We help people to sell, organise, and communicate about their property with confidence. Strong product knowledge ensures everyone derives maximum value from objects they buy, sell, and own.

Home – Mattereum

Trading above the recent high at \$584 would boost the price above \$600. Moreover, this feels like a conservative prediction based on the immense support ahead of the smart contract giant. The bullish narrative will be invalidated if Ethereum closed the day under \$550. On the downside, the next short-term support lies at \$520.

Ethereum long target at \$600 after establishing support...

For most Ethereum based ICO, they provide a ether public key to contribute. Copy the key and paste it in Ethereum BlockChain Explorer and Search and you can see all the contribution. And see the tab “Contract Source” and read the code. Attached the screenshot of tezos smart contract for the ICO crowdsale. 3.1K views
