"Selling Today: Creating Customer Value, one of the most popular sales information books on the market, offers readers a blend of time-proven fundamentals and new practices needed to succeed in today's information economy. It emphasizes the need for salespeople to be guided by the new principle of personal selling: establishing partnerships that are maintained by customer value, created by the salesperson. This edition stresses the need for sales professionals to cope with new forces shaping the world of sales and marketing, and emphasizes the strategies for long-term success. It provides comprehensive coverage of consultative selling, strategic selling, partnering, and value-added selling. Sales force automation is also a major theme. For sales and marketing professionals."--Product description.

Vintage Monogram Notebook This is a lined writing journal that's perfect to use every day. The smooth glossy black cover features an Art Nouveau faux multi colored foiled letter I with flowers. Inside, there is room for writing notes, stories, and ideas. It can be used as a notebook, journal, diary, or composition book. This paperback composition book is 6" x 9" and fits perfectly into a purse or backpack. There are 140 medium-ruled pages (70 sheets). Notebooks and journals are perfect gifts for holidays, graduations and celebrations.

If you could choose a world without loneliness, without shame, grief, misery, or feeling of any kind, would you, if it also meant that you lost the simple pleasure of a picnic on a sunny day or the joy of falling in love? Would the allure of a comfortable numbness prove too tempting to resist? Could you choose between feeling pain and not feeling anything, ever again? A girl is caught in a world where this choice is fiercely contested. In the cross-fire between the Red and White empires, the feeling and the unfeeling, each bent on the other's destruction, the girl must choose between emotion and oblivion, joining the ranks with the Reds as they fight to resist the Whites, but all the while struggling with her own desperate ambivalence. All That Is Red is a story of survival and a journey through the human condition, revealing how the intimate euphoria of pain can sometimes be all we have to remind us that we are alive. Anna Callabiano is fifteen years old. She was born in British colonial Hong Kong to a Japanese mother and an Italian-American father, before moving to Palo Alto, California; the mecca of futurism. Her writing explores and exposes an adolescent dystopia in which accepted traditions, religions, cultures and communities have been eroded, resulting in a lost generation consumed by social apathy and self-loathing which has found solace through electronic connections. Unsettling, engaging and surprisingly erudite, All That Is Red is a remarkably assured debut from an ascending literary star.

Trade in screen time for fresh air and family fun with adventures and experiments from the host of HGTV's Room Crashers. Slacklining, edible bugs, tarp surfing, and more! In this awesome follow-up to the hugely popular Handy Dad, extreme sports athlete and TV host Todd Davis gathers more than thirty projects and activities sure to get kids outside and entertained for hours. With easy-to-follow instructions, helpful photographs, and detailed line illustrations, Handy Dad in the Great Outdoors is packed with all the essentials. From simple campsite know-how to more ambitious building projects (teepee anyone?), plus a few pranks for good measure, this book has something for every family and every place/be it the backcountry or the backyard.

He was a small-town boy who burst onto the international golf scene with a dramatic hook shot from deep in the woods to win the Masters' before the game he loved almost killed him. Opening up about the toll that chasing and achieving his dream of being a champion golfer took on his mental health, Bubba Watson shares his powerful story of the breaking point that gave him clarity. Bubba Watson is known as the big-hitting left-handed golfer who plays with the pink driver;(the small-town kid who grew up as a child golf prodigy before going on to win two Masters Tournaments, competing in the Olympics, and rising to be the number two golfer in the world. But every dream comes with a price. Feeling that he was never good enough, Bubba began to let the constant criticism from fans and commentators haunt his thoughts. Success in the game he loved was killing him. In Up and Down, Bubba opens up about his debilitating anxiety attacks, the death of his father and namesake, adopting his children, and how reaching a breaking point professionally and personally drew him closer to his family and God. Golf is what Bubba Watson does, but it is not who he is. Through his story, you'll learn how Bubba: Overcame his anxiety and feelings of inadequacy Found his true identity not in the standards of the world, but in the God who already knows he is enough Learned to trust God with his gifts, family, and biggest dreams Became the husband, father, friend, and mentor he was called to be Life, like golf, is filled with ups and downs. Up and Down is the inspiring story of an imperfect man striving to become the best person he can be.wherever the course may take him.

From one of basketball's foremost experts in the field of analytics, a fascinating new perspective on how to watch and think about the game. At its core, the goal of any basketball team is relatively simple: take and make good shots while preventing the opponent from doing the same. But what is a "good" shot? Are all good shots created equally? And how might one identify players who are more or less likely to make and prevent those shots in the first place? The concept of basketball "analytics," for lack of a better term, has been lauded, derided, and misunderstood. The incorporation of more data into NBA decision-making has been credited/or blamed/for everything from the death of the traditional center to the proliferation of three-point shooting to the alleged abandonment of the area of the court known as the midrange. What is beyond doubt is that understanding its methods has never been more important to watching and appreciating the NBA. In The Midrange Theory, Seth Partnow, NBA analyst for The Athletic and former Director of Basketball Research for the Milwaukee Bucks, explains how numbers have affected the modern NBA game, and how those numbers seek not to "solve" the game of basketball but instead urge us toward thinking about it in new ways. The relative value of Russell Westbrook's triple-doubles Why some players succeed in the playoffs while others don't How NBA teams think about constructing their rosters through the draft and free agency The difficulty in measuring defensive achievement The fallacy of the "quick two" From shot selection to evaluating prospects to considering aesthetics and ethics while analyzing the box scores, Partnow deftly explores where the NBA is now, how it got here, and where it might be going next.

"Named One of the New York Post's Best New Books to Read \*\* FIRE IN THE STRAW is the witty and deeply felt memoir of Nick Lyons, a man with an intrepid desire to reinvent himself—which he does, over and over. Nick Lyons shape shifts from reluctant student and graduate of the Wharton School, to English Professor, to husband of a fiercely committed painter, to ghost writer, to famous fly fisherman and award-winning author, to father and then grandfather, to Executive Editor at a large book publishing company, and finally to founder and publisher of his own successful independent press... Written with the same warm and earthy voice that has enthralled tens of thousands of fly-fishing readers, Nick weaves the disparate chapters of his life: from the moment his widowed mother drops him off at a grim boarding school at the age of five, where he spends three lonely and confusing years; to his love of basketball and pride playing for Penn; to the tumultuous period, in the army and after, when he found and was transformed by literature; to his marriage to Mari, his great love and anchor of his life. Suddenly, with a PhD in hand and four children, Nick embarks on a complex and thrilling ride, juggling family, fishing, teaching, writing, and publishing, the wolf always at his door. Against all odds, The Lyons Press survives, his children prosper, his wife's art flourishes, and his books and articles make him a household name. Fire in the Straw is a love story, a confessional, and a beautiful big-hearted memoir.

"Drawing on unprecedented access and personal experiences that would not be possible for any reporter today, Shaughnessy takes us inside the legendary Larry Bird-led Celtics teams, capturing the camaraderie as they rose to dominate the NBA. Fans can witness the cockiness of Larry Bird (who once walked into an All Star Weekend locker room, announced that he was going to win the three-point contest, and did); the ageless athleticism of Robert Parish; the shooting skills of Kevin McHale; the fierce, self-sacrificing play of Bill Walton; and the playful humor of players like Danny Ainge, Cedric Cromptread Maxwell, and M.L. Carr."--

Dr. Belisa Vranich's ground-breaking second book teaches the science, techniques, and benefits of breathing correctly and efficiently for warriors in all walks of life. People are less in touch with their bodies—and especially their breathing—than ever before. Ironically, athletes and others who pride themselves on taking care of their bodies actually put themselves at greater risk. Why? Because they're asking their body to take on next-level demands, but failing at life's most essential skill: efficient breathing. Proper breathing is the world's most powerful biohack. Learning it will help you feel better, avoid injury, and perform at your very best (including in bed). Champion gladiators, master martial artists, even spearfishers all had one thing in common: efficient breathing to achieve flawless execution. An elite few still understand: Navy SEALs who need to make the perfect shot, super-elite weightlifters who truly understand how to harness and channel their energy, free-divers who can spend seemingly impossible amounts of time underwater, and high-profile execs who keep calm before multi-billion-dollar presentations. You can learn their secrets. From the corporate athlete to the tactical ninja, Breathing for Warriors is a practical, science-forward book that focuses on everything related to breathing and performance:from muscles and workouts to an impenetrable inner game.
